FINAP joining hands in promoting sustainability

SUSTAINABILITY INCLUSION & INNOVATION

FINAP staying true to its Purpose

Motivated by the capability and capacity developed within the last five years through Innovative Technology

Making a positive impact toward achieving Sustainable Development Goals

SDG 1 - Our champion product ECoru, the FirstMicro Nanofinance solution, and the FMB project are all part of our pledge to the **#01 SDG Goal – No Poverty**. Further, we engage in 'Impact Sourcing,' a practice that involves recruiting from underprivileged communities.

SDG 12 (Responsible consumption and production) – We are planning to reduce 80% of our carbon footprint by 2025.

SDG 15 (Life on Land) - We commit to reviewing our existing suppliers and obtaining a report on their supply sources to ensure that what we procure does not harm the environment in any way.

SDG 16 (Peace, Justice, and Strong Institutions) – We have established processes and controls within the organization to prevent malpractices of any sort.
