FINAP Software Services

Talent-as-a-Service (TaaS)

TaaS is a hybrid of TRA and Bespoke Development models. This model enables clients to outsource a particular task, which we shall complete by utilizing our resources.

- Gain access to our pool of talented tech resources

- Quick completion of tasks (Partial projects or minor design & development tasks)

- High flexibility

- Task-based, Hour-based, and Man-days based costing methods

- Eliminates the tedious and costly hiring process

Talent-as-a-Service (TaaS)

IDS Next (Pvt) Ltd (India)

Issue

- Temporary resources required for specific project tasks in the development of a hospitality management solution

+

Solution

- Tasks were handled on an hourly basis and delivered upon completion

=

Outcome

- Optimized resource allocation
- Optimized development
- High-quality hospitality solutions
- Efficient project progress

Professional Certifications

Of Our Employees

Here's What Our Clients
Say About Us

FINAP
The Software Company

"FINAP's outstanding technical expertise and unwavering work ethic have been instrumental in addressing our various software development challenges."

Mr. Osanda Warnakulasuriya
Head of IT at JMSL

"We are happy to recommend FINAP as a reliable and confident team for technology and support service delivery."

Mr. Anthony Amerasinghe
Managing Director LOT Micro Bank

"FINAP's ECOru Core Banking system and MULA Field Officer App have significantly transformed our operations at S&L Micro Credit."

Mr. Jeewan Sasanka
Founder & CEO, S&L Micro Credit (Pvt) Ltd

"FINAP's core banking solution has been transformative for Wealth Bank. Their exceptional support services and expertise have ensured smooth and efficient operations."

Mr. Kanchana Mamperi
CEO Wealth Coop Bank

"Collaborating with FINAP for resource augmentation was a wise decision. Their proficiency not only helped us meet our goals but also enhanced our team's capabilities."

Mr. Nalaka Abeywickrema
Vice President Softlogic Life

"We made the right decision by selecting FINAP's ECOru since it gives us the flexibility and we do not have to spend our valuable capital on expensive hardware, because all our data is highly secured on the cloud."

Mr. Chameera Ranathunge
Managing Director 4M Investments
